

ABOUT THE AUTHOR

Jamie Humphrey is a professional teacher of Integrated Science and Mathematics. He has taught in prominent schools within Kampala and Wakiso districts in Uganda. He has sufficient knowledge and experience in teaching Integrated Science at primary level as well as Biology and Chemistry at secondary level.

In addition, Jamie doubles as a facilitator of Integrated Science, Item Writing and Customer Care. He is also an item writer of Integrated Science in the firm of SUREKEY EXAMINATION BOARD (SKEB). He is a moderator of Pass PLE items in newspapers as well as a senior examiner.

ABOUT THE BOOK

The SureKey Integrated Science has been developed basing on the current Primary Seven Integrated Science standard curriculum prescribed by the NCDC of Uganda. The book covers all the topics of Primary Seven Integrated Science syllabus.

The flow of content in this book matches with that of the Primary Seven standard curriculum. Each lesson in this book has vocabulary to enable the learner to spell, pronounce, read and understand the key words as a way of developing the language competence.

Similarly, the book has been written in simple and precise English, thus making it easy for the learner to use. At the end of each lesson, a learner's evaluation activity has been provided, catering for all the three levels of assessment—knowledge, comprehension and application (KCA) as prescribed by UNEB PLE syllabus.

It is my sincere hope that this reference book will be of unwavering value to Primary Seven candidates, teachers and researchers.

ABOUT THE AUTHOR

Jamie Humphrey is a professional teacher of Integrated Science and Mathematics. He has taught in prominent schools within Kampala and Wakiso districts in Uganda. He has sufficient knowledge and experience in teaching Integrated Science at primary level as well as Biology and Chemistry at secondary level.

In addition, Jamie doubles as a facilitator of Integrated Science, Item Writing and Customer Care. He is also an item writer of Integrated Science in the firm of SUREKEY EXAMINATION BOARD (SKEB). He is a moderator of Pass PLE items in newspapers as well as a senior examiner.

ABOUT THE BOOK

The SureKey Integrated Science has been developed basing on the current Primary five Integrated Science standard curriculum prescribed by the NCDC of Uganda. The book covers all the topics of Primary Five Integrated Science syllabus.

The flow of content in this book matches with that of the Primary Five standard curriculum. The book has clear diagrams and variety of experiments on most of the concepts to enable the pupil understand the concepts well as science requires Practicle approaches and observations.

Similarly, the book has all the three levels of assessment ie, Recalling, Understanding & Application.(RUA), as prescribed by UNEB PLE setting. In addition, the exercises are set basing on the Competence Based Curriculum (CBC) to help learners apply what they are being assessed.

It is my sincere hope that this reference book will be of unwavering value to Primary Five Pupils, teachers and researchers.

ABOUT THE AUTHOR

Jamie HUMPHREY is a professional teacher of Integrated Science and Mathematics. He has taught in prominent schools within Kampala and Wakiso districts in Uganda. He has sufficient knowledge and experience in teaching Integrated Science at primary level as well as Biology and Chemistry at secondary level.

In addition, Jamie doubles as a facilitator of Integrated Science, Item Writing and Customer Care. He is also an item writer of Integrated Science in the firm of **SUREKEY EXAMINATION BOARD (SKEB)**. He is a moderator of Pass PLE items in newspapers as well as a senior examiner.

ABOUT THE BOOK

The SureKey Integrated Science Pupil's Book 6 has been developed basing on the current Primary Six Integrated Science standard curriculum prescribed by the NCDC of Uganda. The book covers all the topics of Primary Six Integrated Science syllabus.

The book contains some highlighted areas of common misconceptions on certain concepts and irrelevant content in Primary Six Integrated Science to enable learners to get the right content at their level.

Similarly, the book has been written in simple and precise English, thus making it easy for the learner to use. At the end of each lesson, a learner's evaluation activity has been provided, catering for all the three levels of assessment—Recalling, Understanding and Application (RUA) as prescribed by the UNEB PLE syllabus.

It is my sincere hope that this reference book will be of unwavering value to Primary Six learners, teachers and researchers.
