|---------------------------------------|--------|---------------------------------------|------------------------|--|---|---|--|---|--|----------------|--------------------------------|---------|
| THEME : THE HUMAN BODY | | | | | | | | | | | | |
| TOPIC : MUSCULOSKELETAL SYSTEM | | | | | | | | | | | | |
| 1 | 1 | Musc ulosk eletal syste m | The skeleto n | Musculoskeletal System ⇒ This is a group of organs and tissues that hold body of an animal and supports it upright. Skeleton ⇒ A skeleton is the rigid structure that supports the body of an animal. Importance of skeleton ⇒ The skeleton supports the body of an organism. ⇒ The skeleton gives the body shape. Types of skeleton 1. Endoskeleton 2. Exoskeleton 3. Hydrostatic skeleton. | The learner: * Defines skeleton * Mentions the types of skeleton * States importance of the skeleton | The learner: * Pronounces, spells, reads, writes and demonstrates the meaning of words; exoskeleton, endoskeleton, hydrostatic, muscular, axial, cranium, appendicular, coccyx, humerus related to the musculoskeletal system. * Reads, writes and writes texts and questions on musculoskeletal system | Discussion Demonstration. Observation Discovery method. | Defining skeleton Stating types of skeleton Stating the importance of the skeleton. | Logical thinking Decision making Responsibility Appreciation Care Effective communication | Human skeleton | Introduction to Biology p. 119 | |
| 1 | 2 | Musc ulosk eletal | Types and exampl | Types and examples of each type of skeleton | The learner: * Mentions the types of skeleton | The learner: * Pronounces, spells, reads, | Discussion Demonstration. | Mentioning the types of skeleton. | Logical thinking | Human skeleton | Introduction | |

| | | | | | | | | | | | | |
|---|---|------------------------|---------------------------------|---|--|---|--|--|--|----------------|-------------------------|--|
| | | system | es of each type of skeleton | <p>1. Exoskeleton ⇒ This is the type of skeleton formed on the outside part of the body. ⇒ It is common to most arthropods like; insects and crustaceans.</p> <p>2. Endoskeleton ⇒ This is the type of skeleton found inside the body of an animal.</p> <p>3. Hydrostatic skeleton ⇒ This is type of skeleton made up fluid under pressure inside body cavities.</p> | * States the examples of each type of the types of skeleton | writes and demonstrates the meaning of words; exoskeleton, endoskeleton, hydrostatic, muscular, axial, cranium, appendicular, coccyx, humerus related to the musculoskeletal system. * Reads, writes and writes texts and questions on musculoskeletal system | Observation Discovery method. | States the examples of each type of the types of skeleton | Decision making Responsibility Appreciation Care Effective communication | | to Biology p. 119 | |
| 1 | 3 | Musculoskeletal system | Structure of the human skeleton | <p>Structure of the human skeleton</p> <p>Functions of the skeletal bones system</p> <p>1. Protection of delicate body organs for instance; - The vertebrae protect the spinal cord.</p> <p>2. The skeleton gives</p> | <p>The learner: * Describes the structure the human of skeleton * States the functions of parts of the human skeleton</p> | <p>The learner: * Pronounces, spells, reads, writes and demonstrates the meaning of words; exoskeleton, endoskeleton, hydrostatic, muscular, axial, cranium,</p> | Discussion Demonstration. Observation Discovery method. | Describing the structure the human of skeleton States the functions of the human skeleton | Logical thinking Decision making Responsibility Appreciation | Human skeleton | Introduction to Biology | |

| | | | | | | | | | | | | |
|---|---|------------------------|------------------------|---|---|--|---|---|---|----------------|--------------------------------|--|
| | | | | support to the body and holds it upright. Bones provide sites for muscle attachment | | <p>appendicular, coccyx, humerus related to the musculoskeletal system.</p> <p>* Reads, writes and writes texts and questions on musculoskeletal system</p> | | | <p>n</p> <p>Care</p> <p>Effective communication</p> | | | |
| 1 | 4 | Musculoskeletal system | Musculoskeletal system | <p>Musculoskeletal system Bones ⇒ Bones are calcified supportive structures in the bodies of vertebrates</p> <p>Types of bones</p> <ol style="list-style-type: none"> 1. Long bones, metacarpals, phalanges. 2. Short bones e.g. carpals 3. Flat bones -e.g. pelvis. 4. Irregular bones – e.g. sacrum 5. Sesamoid bones- are bones that completely surrounded by tendons e.g. patella. | <p>The learner:</p> <ul style="list-style-type: none"> * Defines bones. * Describes the types of bones with relevant examples. | <p>The learner:</p> <ul style="list-style-type: none"> * Pronounces, spells, reads, writes and demonstrates the meaning of words related to the types of bones. * Reads, writes and writes texts and questions related to the types of bones. | Discussion Demonstration. Observation Discovery method. | <p>Defining bones.</p> <p>Describing the types of bones with relevant examples.</p> | <p>Logical thinking</p> <p>Decision making</p> <p>Responsibility</p> <p>Appreciation</p> <p>Care</p> <p>Effective communication</p> | Human skeleton | Introduction to Biology p. 119 | |

| | | | | | | | | |
|---|---|------------------------|---------------------------------|--|--|----------------|--------------------------------|--|
| 1 | 5 | Musculoskeletal system | Diseases and disorders of bones | <p>The learner:</p> <ul style="list-style-type: none"> * Defines bones. * Describes the | <p>The learner:</p> <ul style="list-style-type: none"> * Pronounces, | Human skeleton | Introduction to Biology p. 119 | |
| 1 | 6 | Musculoskeletal system | | <p>#CREATIVE PRINTERS 0785681207 / 0703745068</p> | | | Introduction to Biology | |
| | | | | <p>⇒ Some joints in the body have synovial fluid which helps to reduce friction.</p> | | | New found. Sci. pbk 7. | |

| | | | | | | | | | | | | |
|---|---|-------------------------------|------------------------|--|---|--|--|--|--|--|--|--|
| | | | | Structure of a synovial joint | | | | | communication | | Mk int. Sci pbk 7 | |
| 2 | 1 | Musculoskeletal system | Types of joints | <p>Types of joints</p> <p>⇒ There are five major types of joints which are movable while others are immovable.</p> <p>⇒ Movable joints allow movement of the bones that make them while immovable joints do not allow movements of the bones that make them.</p> <ol style="list-style-type: none"> 1. Hinge joints e.g. knee, Ball and socket joint- e.g. hip 2. Gliding joint- e.g. wrist/ ankle 3. Pivot joint e.g. the neck. 4. Suture joints in the skull | <p>The learner:</p> <ul style="list-style-type: none"> * Describes the types of joints. * Gives the examples of each types of joint. | <p>The learner:</p> <ul style="list-style-type: none"> * Pronounces, spells, reads, writes and demonstrates the meaning of words related to types of joints. * Reads, writes and writes texts and questions related to types of joints. | Discussion Demonstration. Observation Discovery method. | Describing the types of joints. Giving the examples of each types of joint. | Logical thinking Decision making Responsibility Appreciation Care Effective communication | Structure of different types of synovial joints joint. | Introduction to Biology New found. Sci. pbk 7. Mk int. Sci pbk 7 | |
| 2 | 2 | Musculoskeletal | Muscles | <ul style="list-style-type: none"> • Muscles <p>⇒ A muscle is an elastic fibrous tissue</p> | <p>The learner:</p> <ul style="list-style-type: none"> * Defines muscles. | <p>The learner:</p> <ul style="list-style-type: none"> * Pronounces, spells, reads, | Discussion Demonstration. | Defining muscles. | Logical thinking | Structure of different | Introduction | |

2 6 Musculoskeletal system

ure.

Importance of correct posture

⇒ Prevents body aches.

Life styles to keep muscular skeletal system

⇒ Having regular

- term posture.
- * Illustrates the correct body posture for the every activity we do.
- * States the benefits of correct body posture.

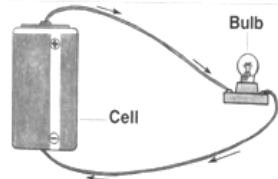

- spells, reads, writes and demonstrates knowledge of the meaning of words related to body posture
- * Reads, writes and internalizes texts and questions related to body posture.
