GOING FOR SCHOOL HOLIDAYS

There are three terms in a year. At the end of every term, school children break up for holidays. School holidays are the happiest and funniest moments in school life. School holidays give pupils time to relax, plan and visit their relatives and friends in urban or rural areas.

Of the three holidays, the third term's holiday is the longest. This is because it lasts for two months or sixty days. The first term's and second term's holiday last for about three to four weeks.

During holidays, children get chance to help their parents on the farm with garden work or with house chores at home. Holidays also provide children with ample time to learn new skills such as knitting, weaving, modeling, baking and looking after domestic animals. They also enable children to prepare for the next term.

Sometimes, they visit four places of their interest such as game parks, zoos, museums, historical sites, mountains and forests. In addition, children go camping with their peers. On some occasions religious leaders organize retreats for the youth during holidays. This gives the youth a platform to meet people from all walks of life and share ideas and **acquire** knowledge.

Dear children, it is good to plan for holidays. Never waste your holidays gossiping or playing cards and watching televisions.

School days for me were very hard.
 Whether it rained or not I had to go,
 To school very early in the morning,
 Hunger and canes were my daily friends,
 Running bare-footed gave me wounded toes.

At school, I had no time to relax.
 I had to learn mathematics, English, science,
 And social studies because there was no option,
 Moments of peace were only during break,
 When I could go out to eat something.

The journey home was also not peaceful,
 I had to run all the way home to go,
 And fetch water, wash dishes and prepare supper,
 When I completed P.7 successfully,
 I had reason to rejoice.

PASSAGE

Read the passage below very carefully and then answer, in full sentences, the questions that follow.

One week before the end of the school first term, the District Education officer of Kibu district wrote a letter to all the head teachers of primary schools in the district.

This is what the D.E.O said in the letter.

“All the head teachers of government and private schools must follow what the minister of Education and sports said about school holidays. The minister said that no primary school in the whole country is allowed to do any teaching during the school holidays. All primary school children must be at home. They must rest at home. They need a rest. Children work very hard at school for three months in a term and so they need a rest. Some clever children have even written letters to the ministry of Education to complain that they are being over-worked by making them study during holidays. These children are right. Their brains must rest for some time.

Parents too must be informed that their children need a rest during school holidays. There are a number of things parents must remember if they want their children to rest properly during the holidays. The first one is that parents must not look for private teachers to teach or coach their children during the holidays. The child cannot learn much at that time; the

brain is still very tired. The parent is therefore paying the private teacher money for doing nothing to the child. The second thing to remember is that the children should do a lot of play while they are at home for holidays. They can also help their parents with some work.

Let me say it again. No teaching during the holidays. My inspectors will be visiting schools, classrooms and private places to see if there is any teaching going on anywhere”.

Just with a pen and a paper,
Messages are sent to multitudes,
Without noise or reading charges,
The messages are delivered successfully.

Whether to mummy at home,
Uncle at his workplace,
Dad in his office or siblings in classes
People are communicating in silence.

Being bad or good messages,
Inviting near and far away friends to a party
One can read and keep the letters for so long
Helping in future references,

I always use pen and paper,
To make friendship stronger,
By inviting my friends to the parties, thanking them
And showing how much I love them

ORDER OF TWO ADVERBS

When we wish to use an adverb of place and an adverb of time in the same sentence or clause, the usual order is adverb of place + adverb of time.

e.g.

- He left for Europe last Thursday.
- She went to the theatre last Saturday.

If we wish to emphasise the adverb of time we may place it before the adverb of place.

He left last Thursday for Europe.

She went on Saturday to the theatre.

As mentioned above, the adverb of time can come at the beginning of the sentence or clause.

Last Thursday he left for Europe.

On Saturday she went to the theatre.

An adverb giving the number of times or frequency normally comes before an adverb of time.

- She went to the library several times last week.
- He went fishing every weekend last summer.

The rule also applied when often is used towards the end of a sentence.

- She went there often in 1982.

PASSAGE

Read the passage below very carefully and then answer, in full sentences, the questions that follow.

One week before the end of the school first term, the District Education officer of Kibu district wrote a letter to all the head teachers of primary schools in the district. This is what the D.E.O said in the letter.

"All the head teachers of government and private schools must follow what the minister of Education and sports said about school holidays. The minister said that no primary school in the whole country is allowed to do any teaching during the school holidays. All primary school children must be at home. They must rest at home. They need a rest. Children work very hard at school for three months in a term and so they need a rest. Some clever children have even written letters to the ministry of Education to complain that they are being over-worked by making them study during holidays. These children are right. Their brains must rest for some time.

Parents too must be informed that their children need a rest during school holidays. There are a number of things parents must remember if they want their children to rest properly during the holidays. The first one is that parents must not look for private teachers to teach or coach their children during the holidays. The child cannot learn much at that time; the brain is still very tired. The parent is therefore paying the private teacher money for doing nothing to the child. The second thing to remember is that the children should do a lot of play while they are at home for holidays. They can also help their parents with some work.

Let me say it again. No teaching during the holidays. My inspectors will be visiting schools, classrooms and private places to see if there is any teaching going on anywhere".

EXAMINATIONS

Examinations are formal tests that one takes to show how much knowledge or ability one has in a particular subject. Examinations are done in all levels of Education.

At Primary level, the examination journey begins all the way from primary one and ends in primary seven. In Primary seven, the last examination you prepare for as a candidate is termed as Primary Leaving Examination abbreviated as PLE.

There are lots of activities one does to do prepare for this final examination while in primary seven. For one to successfully accomplish these longest courses, a primary course which is for seven years: one must have a total commitment because it calls for foregoing all activities that may destruct one's mind.

Among these may include total and intensive attendance of class lessons, being self-driven in terms of revising your books, consulting both teachers and fellow candidates individual carrying out of research and doing of corrections when and where necessary. In order to have a balanced performance across all subjects, one must show and have love for all the subjects.

Total and serious preparations for Primary Leaving Examination kicks off when the time table has been put up by the head teacher. This timetable contains the Uganda National Examination Board logo. He decided to send me to buy more airtime using my bicycle; I rode as fast as a horse. I returned within ten minutes with airtime. When I reached home, I found my father busy listening to the news on radio. He was so attentive that he didn't want any disturbance. He therefore, gave me the mobile phone to load the airtime for him.

He was excited because I was going to do so for the first time. I got the airtime card and scratched it. Since I did not know what to do after scratching, I opened the phone. Then I took it to my father thinking I had done the right thing.

My father immediately tried to call his friend. He dialed repeatedly but the call could not go through. "Have you loaded the airtime?" he asked me. I responded happily that I had loaded it. As he removed the battery, the airtime card dropped on the floor. "oh my son! You didn't know how to load airtime!" he laughed. I was disappointed that I did not load airtime for my father. He realized that I was sad. He held me in his arms and said, "don't worry my son. Let's do it together." Then he loaded as I was watching. I was very happy to learn how to load airtime.

Everywhere people talk about you.

Sugar daddies and mummies,
Trick innocent girls and boys,
With sweets, money and other gifts,
Oh! What a serious crime this is!

Sugar daddies and mummies,
Why do you infect innocent children?
With HIV/AIDS,
Why don't you have mercy?

Will be great women and men
Governing this country
In a spirit of love.

My little boy will not despise my little girl
Because she is a girl
And that my little girl will not hate
My little boy because their daddy will have left him
All the wealth because he is a boy.

All our little boys will be
Responsible fathers educating their children
And all our little girls will be
Loving mothers caring for their children.

With the help of workers, Mrs. Beridwogo led the pupils to the different units. At each unit she explained the activities that were taking place there. We often use some of the manure
Leaving clean our habitats
Then they came to kill us!
What a fuss that is!

Oh! They cut the forests down
They brought the heat and drought
Which are now so hard to reduce

And destruction is the result.

The value in nature
Flora for grazers and browsers
Fauna for meat and tourism for the nation

COMPREHENSION

Read the passage below and answer in full sentences the questions about it.

Environmental conservation is very important to both human and animal life. It is important due to a number of reasons discussed.

First, it is the habitat for all living things. When these habitats are destroyed, it therefore means that living things will be homeless.

Secondly, it also helps in the protection of the Ozone layer. The ozone layer is a thin part of the earth's atmosphere that absorbs almost all the sun's harmful ultraviolet light, so, poor environmental conservation shall also lead to the earth's destruction and hence the atmospheric conditions shall greatly be affected. Therefore good environmental conservation protects the Ozone layer.

Thirdly, good environmental conservation habits help in the maintenance of human and animals food chains. According to the internet, a food chain in simple terms is the sequence of who eats whom in a biological community or an ecosystem in order to obtain nutrition. You can consult your teachers of SST and Science to know more about the ozone layer and food chains respectively.

Last but not least, the good habitat also helps in the prevention of probable water which results into efficient use of non-renewable resources.

According to Nature Conservancy, serious environmental damage often takes decades for negative results or impacts affecting humans, animals and the atmospheric conditions to be noticed. So, it is everybody's responsibility to take charge of the environment.

THE ENVIRONMENT IN DANGER

Side by side encroachers are penetrating.
Forests are cherished by elders
To build their houses and start factories
The forests once kept intact
From the time of our ancestors,

Are now no more because of greed,
For mankind to set farms, buildings and roads.
Animals have no homes to live in,
The flora and the fauna, no more to see,
Carpenters want timber for furniture.

Environment ever in danger,
Swamps have been drained for rice plantations,
Rocks even in their hardness are no more for building stones
Land has been fragmented,
Just for the good of all to live in,
Paving way for soil erosion and overgrazing.

Overgrazing, NGO's helps the vulnerable,
To regain their rights to a natural setting
NEMA, help us get back our swamps,
No more fish, no more fresh water,
All sources have been polluted,
By constructing of heavy industries,
In the name of investors

Mr. Bitek, the Primary Five teacher, wanted to ask his pupils to write about marriage customs in the northern part of Uganda. He talked to the head teacher, Mr. Opio and said "I'd like my father to talk to my pupils about marriage customs but he doesn't want to. He says he doesn't speak as well as he used to."

Mr. Opio said, "It was a pity that you couldn't persuade him to. Look here, write to Mr. Gera. He is the village chief. He can talk to Primary Five, Six and Seven." "That is a good idea," said Mr. Bitek. I'll write and give the letter to his grandson, Geria. "I usually see Geria though I haven't seen him yet today." Mr. Bitek wrote to Mr. Gera and Geria took the letter. The next day Mr. Gera sent a message saying that he would come and talk to the pupils.

On Friday, the pupils gathered together in a big hall where they waited for Mr. Gera's arrival. Minutes later, Mr. Gera arrived and Mr. Bitek met him at the gate as he did not want to keep him waiting. After greeting him, Mr. Gera said, "These are my friends Mr. Okor, Dr. Asega, Rev. Akello and Constable Okot. They were led to the hall where the pupils welcomed them with a thunderous hand clap."

"Good afternoon children," Mr. Gera said. "I am happy to be here with you to talk to you about our marriage customs." Then he said "The elders do not like people who are related to marry each other." Young people do need occasions to meet. They usually meet at dances, market places and on roads where the girls would go to grind millet.  They weep and wail for their dear
 Tears roll down their cheeks
 Condolences come from hundreds of mourners
 Oh, what a crowd of mourners!

Courage, brothers and sisters, says the Sheikh.
 Shock to the bereaved, but the Sheikh resists,
 Grief to all mourners but the Priest insists,
 Brethren, courage, which is not the end of the world
 From dust we come to dust we return,
 No one owns life no one chooses death
 Down they lower the coffin into the last home
