30. How is the jelly around the eggs of a toad important?

31. State any one reason why cattle keepers practice cross-breeding.

32. Which delicate body organ is protected by the cranium?

33. How can the eye defect drawn above be corrected?

34. How is a hygrometer important at a weather station?

35. Give one way living organisms in soil help to improve soil fertility?

36. How are arteries able to withstand pressure of blood pumped from heart?

37. To which class of levers do we put a fishing rod?

38. What term refers to the release of ovum from the ovary?

39. Why should water obtained by filtration be first boiled before drinking it?

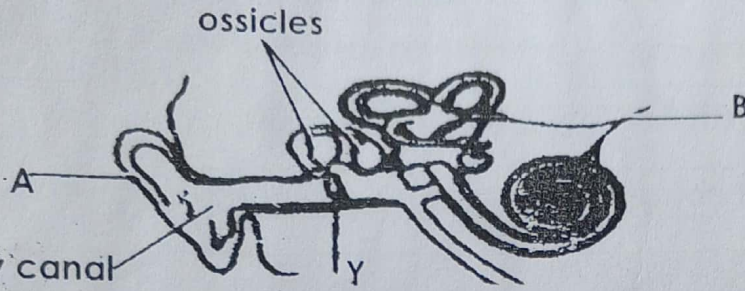

40. What is the source of energy for producers in food chain?

### SECTION B (60 Marks)

The diagram below shows a human ear

41. a) Name the parts marked A and B

i) A \_\_\_\_\_

ii) B \_\_\_\_\_

b) How is part marked Y adapted to its function of balancing the body?

c) How can one care for the above organ to keep in a proper functioning way?

42. a) Name the component of blood that transports digested food.

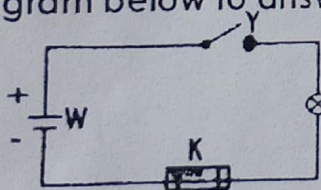

b) Give two components of blood plasma.

i) \_\_\_\_\_

ii) \_\_\_\_\_

c) How does white blood cells defend the body against diseases?

43. Use the diagram below to answer the questions below.

a) Name the component of a circuit marked Y

b) Give the function of component W

c) How is component Y similar to component K in terms of their function?

d) State the energy change that takes place in the bulb when the circuit is complete.

44.a) Name the type of cattle that provides labour at home.

b) State one structural difference between dairy cattle and beef cattle.

c) Name any one example of dual purpose type of cattle.

45.a) State any two ways of conserving non-renewable resources.

i) \_\_\_\_\_

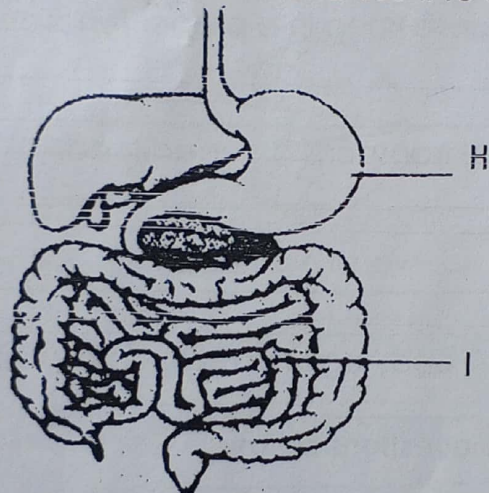

ii) \_\_\_\_\_

b) In which two ways does uncontrolled bush burning degrade the environment?

i) \_\_\_\_\_

ii) \_\_\_\_\_

46.a) Study the diagram below and use it to answer the questions that follow.

a) Name the class of food digested in part H.

b) State the function of part I.

c) Give one reason why digested food end in part I.

d) Give one way of caring for the above system.

47.a) Where in the body does respiration occur?

b) Mention two raw-materials used by human body for respiration.

i) \_\_\_\_\_

ii) \_\_\_\_\_

c) State the importance of cilia found in the nose during breathing.

48.a) Give any one example of water pollutant.

b) Mention one step followed when cleaning clothes.

c) Which method of cleaning clothes removes excess water from them?

49.a) Give the difference between mulching and contour ploughing.

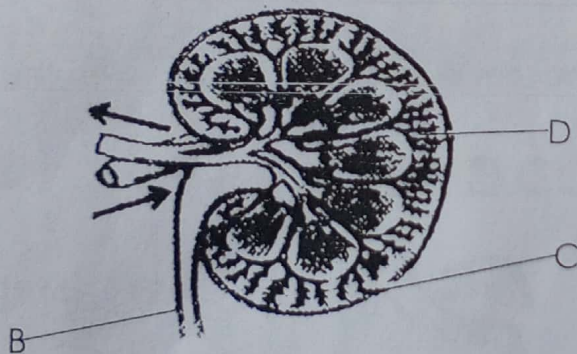

b) How does mulching moderate soil temperature?

c) Give two advantages of crop rotation.

i) \_\_\_\_\_

ii) \_\_\_\_\_

50. Use the diagram below to answer the questions that follow.

a) Name part marked D.

b) What happens to blood in the part marked P?

c) Give the function of part E to the kidney.

d) Give one disease that affects the kidney.

51. Match the difference in list A with the signs and symptoms in list B.

A

Polio

Measles

Tetanus

Diphtheria

i) Polio

ii) Measles

iii) tetanus

iv) Diphtheria

B

Swollen neck

Stiffness of muscles

Palalysed tissue

Skin rash

52.a) Why is it important to feel the heartbeat of a seriously injured victim of an accident?

b) What first aid can you give to a person who has near drowned?

c) Give the reason for following a casualty who is bleeding in the nose to breathe through the mouth.

d) Why is the above first aid in (b) given to a casualty?

53. The diagram below shows the beaks and feet of birds. Use it to answer the questions that follow.

a) State the type of food the part labelled A feeds on.

b) How does the bird use foot (claws) labelled C for feeding?

c) Give the difference in feeding between birds with beak **A** and those with beak **B**.

d) How are birds with foot labelled **D** able to swim in water?

54.a) Give the meaning of a spectrum.

b) In the formation of the spectrum of white light by a prism which colour.

i) Is deviated least?

ii) Is deviated most?

c) What colour will the leaves appear if they are placed in blue light?

55.a) Give one disadvantage of family planning.

b) Why is vasectomy regarded as a permanent method of family planning?

c) Give two natural methods of family planning.

i)

ii)
