|  |
| SECTION .B. (50 MARKS)   |
| 51. Read the passage below and answer in full sentences, the questions that follow.  |
| SEASONS IN A YEAR  |
| There are two different seasons in a year. They are wet season and dry season.   |
| We receive these seasons twice in a year in our subcounty.   |
| Farmers in our subcounty carry out different activities during these seasons. During the wet season, they prepare land and plant their crops. It is in the same season when weeding of the crops is done. They weed their crops to allow them grow well. They als weed them to control vectors since weeds may act as their <u>habitat</u> . |
| During the dry season, there is always a lot of sunshine. Farmers practise irrigation to prevent their crops from drying up. After the crops have matured, they harvest and drying them. When the harvested crops dry properly, some of them are eaten and others kep a special place called a granary.                                      |
|  |

| In which season do farmers grow their crops?  Mention one reason why farmers weed crops.  Which season is characterized by sunshine?  Why do farmers irrigate their crops?  Where are dry harvested crops kept?  Give a single word or group of words with the same meaning as the words used in sage.  (i) twice  (ii) habitat  Write the title of the passage.
